Calculating the 360 Experience Points

You must accumulate at least 360 points to qualify for a real estate broker's license based on experience as a real estate license holder. An applicant must also be actively licensed as a real estate sales agent or broker for a minimum period of 4 years during the 5 years preceding the date the application is filed.

- Only experience gained during the period beginning 5 years before the date the broker application is filed may be used for this report. You must have performed at least one transaction per year for at least 4 of the last 5 years.
- Multiply the number of transactions performed by the point value indicated to arrive at the points earned for that transaction type.
- Add the points earned for each transaction type to arrive at your total points for that category.
